**NEW BUSINESS**

Adam Hack made a motion to declare unit #8498 surplus. The motion was seconded by Chris Haunz and approval by the board was unanimous.

Our tanker, unit #8467 is on loan to Westport Fire as theirs has been taken out of service.

Jeff Pence and David Pendleton, from Westport Fire asked to address the board and made an offer to purchase our tanker unit #8467.

A discussion by board members followed. Chris Haunz stated that the tanker was purchased 10 years ago for \$10,000 and we have put approximately \$9,000 into the unit for tires and other necessities. A board member related that because the water pressure in the Persimmon Ridge area has now been greatly increased and the hydrants have all been brought up to working order the need for using the tanker has been greatly reduced. Chief Hamilton stated that other fire departments within our region all have tankers which we could call upon should it be needed. The chief also stated that taking the tanker out of our fleet will not effect our next ISO rating. According to the Chief he poled officers in the department and they were in agreement that the tanker is no longer needed and could be sold.

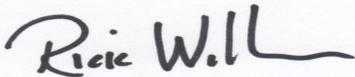

Adam Hack made a motion and seconded by Chris Haunz to declare the tanker unit #8467 surplus. The motion passed unanimously.

Chairman Burkhardt asked the Westport Fire representatives in attendance to make an offer. They stated that they felt \$5,000 would be a fair price. On a motion by Rick Williams and seconded by Chris Haunz the board unanimously accepted the offer of \$5,000, with no warranty, and as is. Chief Pence immediately poled his board electronically and received approval of our offer and price. Chris Haunz will work with Westport Fire to handle the paperwork and transfer.

The next Board of Trustees meeting will be held Monday, December 18, 2017 at 7:00pm at **Station #1**. As always the public is invited to attend.

On a motion by Chris Haunz and seconded by Joy Tabler the meeting was adjourned.
