Paige Kolok, did not get activated, as previously reported, to go to Miami to help in the rescue of the collapsed high rise. The mission was concluded before she arrived. A board member asked about her workers comp coverage and the Chief agreed to look into issue. Paige has since received a grant for her and her dogs but it went directly to her and not through the department.

Chief Hamilton reported that all of the ISO information was turned into the committee and we should hear back in approximately 6 months as to if our current rating will stay the same or change.

Chief Hamilton reported that he received several thank you notes from the Brotherhood Ride- for allowing Amanda Moore to use the fire department truck in their sponsorship ride.

The Chief reported that there was damage to a parking lot at a local church when our fire truck was driving into their parking lot at a vacation bible school event. The damage is in process of being estimated with reasonable repairs to return the condition to its original state with the intent that PVFD will over and not file an insurance claim. The firefighter driving of the truck has been counseled on the proper parking procedures.
